MUHAMMAD SHAHEER

Lahore, Pakistan | +92-322-8457516 | muhammad.shaheer26@hotmail.com | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Civil Engineering graduate from FAST-NUCES (2026) with hands-on experience in structural analysis, design, construction supervision, and project management. Currently working as a Trainee Structural Engineer at Deomar Engineering. Proven leadership as Senior Vice President of ASCE-NUCES Chapter, managing multi-disciplinary teams and large-scale events. Proficient in ETABS, SAP2000, STAAD Pro, Primavera P6, AutoCAD, and MS Office. Passionate about continuous learning, eager to take on new challenges, and committed to growing within a world-class engineering organization.

EDUCATION

B.S. Civil Engineering — FAST-NUCES, Lahore 2022 – 2026

- Senior Vice President, ASCE-NUCES Chapter — led and managed a team of 30+ members, planned and executed technical workshops, events, and chapter initiatives at university level
- Led coordination with faculty, industry partners, and volunteers ensuring smooth execution and high-impact engagement
- Recognised with a shield and certificate at the 17th International Conference on Geotechnical Engineering & 8th International Symposium on Geohazards, hosted at FAST-NUCES Lahore

FSc Pre-Engineering — Govt. College of Science, Wahdat Road, Lahore 2020 – 2022

Matriculation — Lahore Garrison Grammar School, Awan Town, Lahore 2018 – 2020

PROFESSIONAL EXPERIENCE

Trainee Structural Engineer — Deomar Engineering Sep 2026 – Present | Lahore

- Designing oil and gas structures including skids, platforms, and sheds using STAAD Pro in accordance with applicable engineering standards
- Designing foundations for oil and gas structures using STAAD Foundation
- Preparing detailed Bills of Quantities (BOQs), Material Take-Offs (MTOs), and bidding documents for structural projects

Engineering Intern — Ittefaq Group Jun – Jul 2025 | Lahore

- Supervised structural construction of a 5-basement high-rise: excavation, reinforcement fixing, and concrete quality control (sampling, curing, cube testing)
- Developed and baselined project schedule in Primavera P6; defined WBS, activity sequences, durations, and resource allocation
- Reviewed IFC drawings and bidding documents; coordinated procurement, contract bonds, and dewatering safety plans

Engineering Intern — WAPDA Jul – Aug 2024 | Lahore

- Coordinated contract management and operational support for the Tarbela 5th Extension Project under the Central Design Office
- Assisted with technical planning, feasibility assessments, and quality control evaluations for hydropower infrastructure
- Visited Mangla Dam and Mangla Power Station; gained exposure to the operation and maintenance phase of a mega hydropower project including power generation systems and dam safety operations

PROJECTS

Final Year Project: Structural Model Evaluation of a Steel Frame Using Acceleration-Based Field Monitoring 2025 – 2026

Tools: *Arduino IDE, STAAD Pro* | View project

- Designed and deployed a sensor-based system to experimentally measure natural frequency, damping ratio, and time period of a steel gable frame; results validated against STAAD Pro analytical model

Structural Analysis & Design — 15-Storey RC Residential Building with Basement 2026

Tools: *ETABS, SAFE (Foundation Design)* | View project

- Full structural design of a 15-storey RC building using dual system of RC frames and shear walls per ACI code; designed waffle, ribbed, flat, and solid slabs, beams, columns, shear walls, and foundations

Structural Modeling & Analysis — Steel Industrial Building 2025

Tools: *SAP2000, IdeaStatica* | View project

- Modeled and analyzed a steel industrial building; performed member design checks per AISC 360-16 and designed connections using IdeaStatica

Construction Planning & Scheduling — 4B+G+21 Storey Commercial Tower 2026

Tools: *Oracle Primavera P6 Professional, MS Excel* | View project

- Developed and baselined full project schedule using sectional pour methodology; tracked real-time progress and validated Schedule % vs Performance % via Activity Usage Spreadsheet reports

CERTIFICATIONS

Primavera P6 Fundamentals — Alison (CPD Certified) | View certificate July 2025

SKILLS

Software: ETABS, SAFE, SAP2000, STAAD Pro, IdeaStatica, Primavera P6 Professional, AutoCAD, Revit, ArcGIS, MS Office, Python, C++

Languages: English (Professional), Urdu (Native), German (Basic)
